# INNOVATIVE FIRE PROTECTION SOLUTIONS

## Tested and approved water mist systems

We believe that good quality comes from good product design and well-organized manufacturing processes together with good raw materials. Our Staff are dedicated, well skilled and educated, and our quality assurance system is ISO 9001 approved.

All our products are designed and tested by accredited fire test laboratories to comply with the latest updates of the international approval standards for water mist systems and components for fire protection at on-shore, maritime and off-shore locations and applications.

## Design. Supply. Support.

VID offers low pressure water mist solutions for a wide variety of applications:

- Road and Tunnels
- Heritage Buildings
- Atriums
- Aircraft Hangars .
- Ordinary Hazards Sprinkler Equivalent Systems
- Generator Enclosures
- Machinery Spaces
- Special Applications
